Step 7. Select your registration category (Ordinary / Student) and click “ADD TO CART”. The maximum “Qty” quantity for each payment account is 1.

population immunity through vaccination is the primary approach used to reduce the annual disease burden of influenza and COVID-19 in many parts of the world. In the near future, RSV vaccines will also be introduced. The objective of this meeting is to improve our understanding of individual and population immunity to respiratory viruses, and how these change over time, with direct implications for vaccination policies and other control measures.
